

Lease your iMOW With Hendersons

Plans starting from
as little as

\$89

per/ month*

Start relaxing and remove one job from your weeks with an iMOW lease plan with Henderson's. Contact us directly for your free assessment today at sales@hendersonmowers.com.au

Leasing plans range from \$89 to \$149 per/ month for each iMow installed and if chosen will include all repair costs on the iMow, wire maintenance and more.* One upfront installation cost is the only payment you will make in addition to your leasing plan.

Henderson's remains the owner of each iMow so a service technician will look over each unit, service it, install it and address any issues in which you have. Leasing your iMow is a way to reduce the cost of having a robotic mower and removing the costs of having to repair it too.

*Installation cost is case by case basis but roughly ranges from \$395-\$600, For full iMow terms and conditions please contact us directly. Each plan is tailored to the user and may include; loss and damage of the unit/ docking station. Loss/ damage caused by the user to the unit or docking station. Loss and damaged caused by nature to the unit and docking station.

Installed and maintained by an iMOW technician

A Henderson's iMow subscription plan breaks it down into easy monthly payments and removes most maintenance costs in the future.

The beauty of leasing an iMow from a Henderson's plan means we are responsible for keeping the unit going.

Need a new battery? Henderson's will replace it for free. Need a new blade? Hendersons will replace it for free.
