KL120SG1 Screwgate

KL120TL1 Twistlock

KL120SS1 Supersafe

Captive Pin versions available on request.  
Pin supplied loose, for retro-fit

## PRODUCT OVERVIEW

The KL120 Compact Oval is a palm-size compact oval karabiner with an effective working length of only 70mm (2 3/4"), making it the ideal option for applications where a short/compact system is advantageous.

Many industrial Oval Karabiners have an offset shape, in order to bias (offset) the load towards the spine (the strongest part of the karabiner), to achieve additional major axis strength. The KL120 however is a 'true' (symmetrical) oval, which is ideal when load centralisation, correct orientation and optimal loading are the top priorities, to enable balance in a system.

## TECHNICAL INFORMATION

Part Code	KL120
Nose Type	Keylock (anti-snag)
Gate Options	Screwgate, Twistlock or Supersafe (triple-lock)
Gate Opening	16mm (0.62")
Dimensions	56 x 95mm (2.2 x 3.7")
MBS	<b>Major Axis</b> 24kN (5395lbf), <b>Minor Axis</b> 9kN (2023lbf), <b>Gate Open</b> 7kN (1573lbf)
Weight	63g (2.2oz)
Material/finish	Aluminium/Anodised
Standards	EN362:2004 B & T EN12275:2013 B, X & T
